Our Vision

Imagine a world where there is no abortion ...no infanticide ... no euthanasia... ...Working together . . . it is within our reach. ILS has a long and rich record of working to restore a culture of life in our nation and worldwide. Our mission is promoting the sanctity of life from the moment of fertilization to its natural end, promulgating the moral ethics expressed in the Judeo-Christian tradition. Our action is training, organizing and equipping people through our Education and Life Services Divisions.

Education

Designed to educate, honor and inspire those who serve. The Educational Department provides cutting-edge seminars and materials for pro-life center administrators and counselors, well researched materials for educators, students, and the public on life-affirming issues, training abstinence speakers & sending them to public & private schools. Life Services A long-standing commitment to caring for those in need. 42 pregnancy counseling centers in 13 States are currently federated with ILS. They meet high quality of counseling and operational standards ensuring that every woman facing an unplanned pregnancy knows the resources she needs in order to continue her pregnancy.

Bioethics

The Scholl Institute of Bioethics is a leader in providing material, speakers, and seminars in the fight to preserve the Judeo-Christian values in the medical field. Issues such as the legalization of physician assisted suicide, cloning, fetal experimentation has necessitated research and education to assist the general public in life and death decisions.
